## profile

---

A dedicated Computer science graduated with hands-on experience in full-stack development. skilled in javascript, python and modern web frame works , with a passion for building innovative digital solutions. seeking to leverage my technical and leadership abilities in a challenging development role

## Education

---

**University of calicut** *june 2021 – March 2024*  
BACHELOR OF COMPUTER APPLICATION  
Malabar college of arts and science moodadi ,kozhikkode

## Experience

---

**MERN Full Stack Development Intern,** *kakkanad, kochi*  
*LuminarTechnolab* *July 2024 – feb 2025*

- Developed responsive front-end interfaces using React.js, enhancing user experience and application performance.
- Built secure and scalable RESTful APIs with Node.js and Express.js, ensuring seamless MongoDB integration.
- Implemented JWT-based authentication, robust error handling, and debugging to streamline full- stack development

## Projects

---

**Blog Application (MERN)** *github-repo* [🔗](#)

- Developed a blog platform that allows users to register, log in, create profiles, and post blogs.
- The project was built using React for the frontend and Express.js with MongoDB for the backend.
- It features secure JWT-based authentication for user login and profile management.
- Custom APIs were implemented for user registration, login, and profile updates, including file upload support for profile pictures.
- Additionally, token-based authorization middleware was integrated to ensure enhanced security.
- Tools Used: React.js, Node.js, Express.js, MongoDB

**E-commerce** *github-repo* [🔗](#)

- Built a responsive e-commerce application using React, Redux, Axios, and Bootstrap.
- Implemented product listing, cart management, and checkout functionality.
- Used Redux for state management and
- Axios for seamless API integration. Designed a clean, user-friendly interface with Bootstrap for responsive styling.
- Tools Used: React.

## Technologies

---

**Languages:** JavaScript , HTML5 , CSS3

**Technologies And Frameworks :** React.js, Redux, Context API, Node.js, Express.js, Rest API, Material UI

**Databases And Version Controls :** MongoDB, Mongoose, Git, Postman
